

CURA SCREEN

Designed for screens and flexible spaces

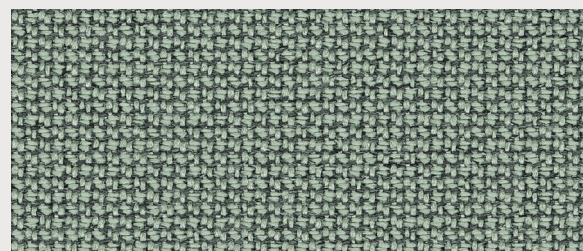

Gabriel®

Designed for screens and flexible spaces

Cura Screen is a melange screen fabric made from 98 % post-consumer recycled polyester.

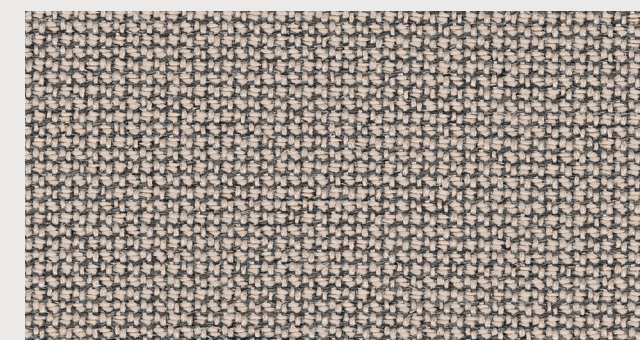

It is designed specifically for vertical surfaces such as screens and panels and for the creation of flexible spaces where movable and multifunctional furniture provide the freedom to meet shifting needs.

Combine with upholstery fabric Cura

Cura Screen is designed as the perfect accompaniment for upholstery fabric Cura. Use Cura Screen for room division solutions and Cura for classic office furniture or lounge seating to create complete interiors where matching fabrics harmoniously bind the space together.
